

AOC Takeaway Points

AOC requires each attendee to record three takeaway points per hour, i.e. things you learned or statements made during the lectures, in order to receive credit. This *optional* form can be used to record your takeaway points while viewing the lectures, though you may also use your own paper or electronic document to record. If used, *please keep this form for your records and submit with your recertification* - it does not need to be submitted to meeting organizers in order to receive credit.

Saturday, Nov 13th

11:00 – 1:15 PM
