

Heath Barto

I am excited to run for the opportunity to serve as the Representative to the AOC. I would appreciate the opportunity to serve the AACO Board and the AOC to be a liaison between the organizations. In the last 10 years of being an orthoptist I have seen all the wonderful things the AOC and AACO do for our profession and would like to serve in a role that would contribute to these organizations. I have been an Orthoptist educator and Co-Program Director for four of those years and understand how important both organizations can be to the enrichment of our profession and would like to be a part of the administration within the organizations.
