

Lindsay Klaehn

I am honored to be nominated for the position of secretary of the AACO. I would like to become a more active member in our profession and I feel that this opportunity suits my skill set and that I would be a good fit for the secretary position. I am well organized, a good team player, and have great communication skills. I am passionate about Orthoptics and have been an active member in the AACO for 6 years, presenting at the national meeting for the past 4-5 years. I look forward to working with all the current and future members of our association and am excited to see our professional organization grow and develop, and to use my skills and abilities to contribute to that process.
