

Sally Murray

I have great respect for both The AACO and AOC – I believe they are wonderful organizations that work tirelessly to improve the careers and prospects of COs throughout the U.S. It would therefore be a great privilege to serve both organizations in the capacity of AOC representative.

I love being an orthoptist and feel passionately about making this profession as incredible as it can be for all involved. I am committed to any task I undertake, detail orientated and rarely miss a deadline.

Thank you for your time and consideration.
