

Personal Statement

I am honored to be nominated as AACO representative to the AOC.

I have been an orthoptist for the past 26 years. I love orthoptics and the diversity it grants to its membership. An orthoptist can be a clinician, teacher, and researcher. I have had the opportunity to serve in all these roles but one of the most important roles is to be an advocate for the profession. I have made it my priority to become actively involved in the AACO again. In the past, I have served on several committees from Education Committee member, AACO Midwest Regional Meeting Co-Chair, Nominating Committee member, Honors Certificate chairperson and AACO Secretary. These positions have permitted me to serve the organization on many levels.

If elected for AOC Representative I will stand up for orthoptists. I will work to contribute to the betterment of orthoptics as a profession through education and recognition.

I sincerely appreciate the nomination for AOC Representative and pledge to work for you, the membership of the AACO, if elected to this position.

Wanda L. Pfeifer, OC(C), COMT, CO
